

School Council Meeting – 25.09.25

Agenda & Minutes

Present: Mr Adams, Mr Crown and all new members of school council present today

<u>Agenda Item</u>	<u>Suggestions & Minutes</u>	<u>Actions</u>
<u>What do school council want to discuss and focus on this academic year?</u> • What do the school council think the areas of focus should be this year to make school better for the children? • What are some possible solutions to help with making specific things better? How can we all work together to do this?	During the meeting, we had a long conversation about exactly what the school council is, what they do and how we work if we don't all agree on the best action for school. We talked about a fair voting system and discussed how the members of the school council weren't voting for what they wanted personally, but were voting on behalf of all of the children in South Gosforth First School. The school council then identified the key areas that they would like to discuss over the course of the next few meetings. These things will form the agenda for our meetings over the next few sessions: • More singing in school • More drama in lessons • Lunch slots • More gymnastics • Writing provision in school • After school clubs – More sports and more music • Circle Times and the length of them • Football goals is a good thing to focus on • OPAL provision	• Mr Adams and Mr Crown will put these items on the agenda to discuss at future school council meetings.
